

Univerza v Uppsali organizira brezplačne internetne tečaje bioinformatike

September 2016 introductory course on Pharmaceutical Bioinformatics (7.5 ECTS credits) given by Uppsala University is now open for application.

The course, which is free of charge for EU/EAA-citizens, is suited for researchers, post docs, teachers and students who are interested to learn how complex chemical and biomedical processes can be investigated even down to their finest chemical details using informatics, and how this can be used for the development of novel drugs.

To receive further information and signing up please visit www.pharmbio.org.

On request of many previous participants two additional courses are offered:

- I. Applied Structural Pharmaceutical Bioinformatics (5 ECTS credits) (course start September 2016)
- II. Applied Pharmaceutical Bioinformatics (5 ECTS credits) (course start October 2016)

More information is available at www.pharmbio.org/pages/other_courses.
