

Agilent 1100 HPLC

Agilent, ZDA

Aparatura omogoča kromatografsko detekcijo in kvantifikacijo analitov, učinkovin, njihovih razgradnih produktov ter metabolitov.

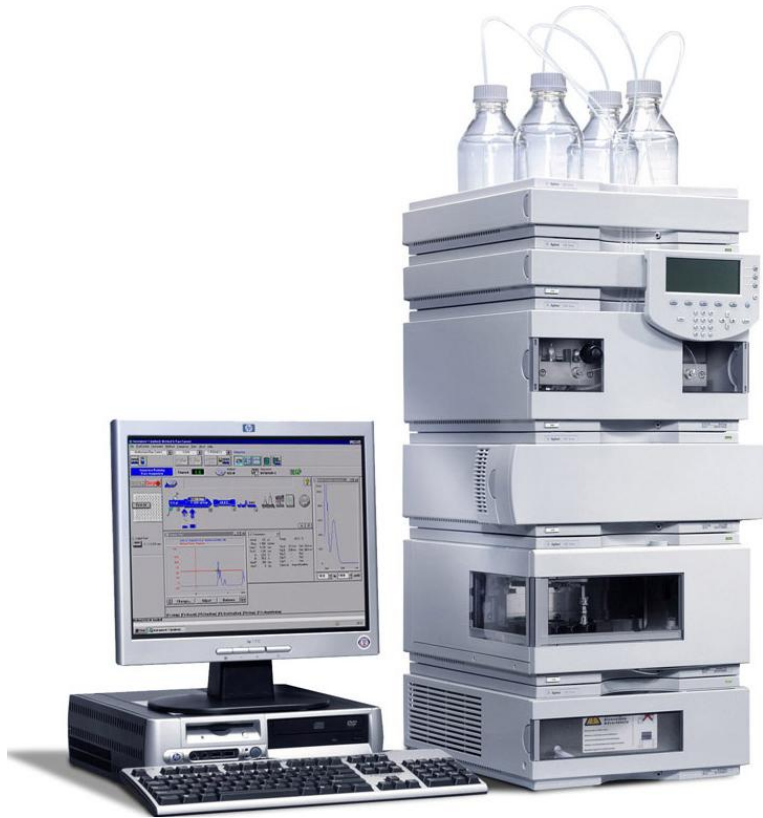

Uporaba:

- Študije topnosti, stabilnosti, permeabilnosti
- Določanje vsebnosti
- Določanje nečistoč
- Testi raztapljanja

Lokacija: Katedra za farmacevtsko tehnologijo

Agilent 1100 HPLC

Agilent, USA

The instrument enables chromatographic detection and quantification of substances, API's, their degradation products and metabolites.

Uporaba:

- Studies of solubility, stability, permeability
- Assay
- Determination of impurities and related substances
- Dissolution tests

Location: Chair of Pharmaceutical Technology
