

**Calling on all  
curious minds!**

# ScienceBEAT 2023

September 7–10, 2023 - Ljubljana, Lendava

ScienceBEAT is an exceptional scientific and professional event, aimed at outstanding students of natural sciences and business from Slovenia and abroad. It enables young talents to enter a global network of professional excellence in science and entrepreneurship.

## Why attend?

ScienceBEAT is an invaluable experience for accomplished students and young professionals at the beginning of their career path. Participants are going to:

- get a unique insight into the trends and challenges of the modern pharmaceutical industry;
- feel the pulse of a global pharmaceutical company, the leader in the development and production of biosimilars and generic pharmaceuticals;
- have an exceptional opportunity to network, as well as gain invaluable knowledge and professional insight from world-renowned scientists and innovative entrepreneurs;
- gain practical experience with collaborative work on a pharmaceutical-business challenge and an opportunity to demonstrate their knowledge and skills;
- obtain a comprehensive experience that complements professional content with knowledge about local culture, well-being, mindfulness, and personal growth;
- receive access to a global network of experts and career opportunities in an agile and inspiring business environment that is based on inclusion, equity, and diversity.

## Key speakers

### Sir Paul Nurse

Renowned British geneticist and cell biologist, winner of the Nobel Prize in Physiology or Medicine for his ground-breaking research on the cell cycle. Current Director of the Francis Crick Institute in London, which is one of the world's leading biomedical research centres.

### Andy Baynes

Former Apple, Nest and Google executive, entrepreneur, and product design and innovation specialist, guest lecturer and author of published articles on design and innovation, environmental product design, and energy efficiency.

## Who are we looking for?

The event is intended for perspective natural sciences and business students in their last year of undergraduate, as well as master's, doctoral and postdoctoral studies from Slovenia and abroad.

We will select 30 participants from the applicant pool. We are looking for the most outstanding individuals from various backgrounds and academic disciplines to bring diversity and excellence to the event and shape the future with us.

The event will be held in English, so fluency in the English language is required.

## How to apply?

Fill out the application form [www.lek.si/sciencebeat](http://www.lek.si/sciencebeat) **by June 18, 2023**.

Candidates will be notified of the selection result by email in early July 2023.
