

EDUCATIONAL PHARMACOMETRICS SUMMER SYMPOSIUM

PHARMACOMETRICS: FROM HERE TO WHERE?

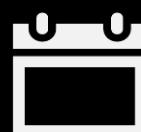

WOULD YOU LIKE TO KNOW:

- How statistics and mathematics can be used to optimise drug development and pharmacotherapy?
- How therapeutic drug monitoring can be improved to facilitate patient treatment?
- How to translate preclinical data to human and improve first-in-human trials?
- How different dosing regimens can be explored in silico?
- How lengthy clinical trials can potentially be avoided helping drugs reach the patients faster?
- Where pharmacometricians work and if this could be the next step in your professional career?

IF YOU ANSWERED YES TO ANY OF THE ABOVE, JOIN OUR FREE EVENT!
